Profile

Senior Product Manager with 6+ years of experience building enterprise software by transforming internal operational platforms into configurable SaaS products. Experienced in leading platform modernization, workflow automation, AI-enabled product capabilities, and enterprise integrations to solve complex business problems at scale. Proven track record of delivering configurable platforms that simplify operations, accelerate implementations, and enable commercial growth.

Education

B.Tech, Maulana Azad National Institute of Technology, Bhopal (NIT-B)

Bhopal, India | 2015 – 2019

Professional Experience

Quess Corp Limited, Senior Product Manager

Bengaluru, India | 06/2025 – Present

- Productized Quess' internal payroll platform into the Hamara Suite by introducing configurable payroll cycles, payroll batching, reusable workflows, and tenant-level configuration, enabling onboarding of **26 enterprise SaaS customers** within a year.
- Built **operational capabilities for the Managed Service platform** including SLA tracking, auditability, and customer logins, supporting payroll operations for 38K+ employees across enterprise managed payroll customers.
- Introduced **AI-assisted Upload mapping** and intelligent validation across 7 payroll upload workflows, processing 450+ enterprise files per month and automatically mapping 65%+ of uploaded fields before manual intervention.
- Reimagined payroll employee filtering by introducing an intelligent Bulk Copy-Paste workflow with automated parsing, validation, deduplication, and inline error handling, **replacing Excel uploads in ~85% of employee filtering requests**.

Avsar HR Services, Product Manager

Bengaluru, India | 12/2023 – 05/2025

- Productized the organization's internal workforce platform into **HR10X**, a configurable SaaS product that onboarded 12 enterprise customers within the first year, collectively supporting workforce operations for 35K+ client employees.
- Built a digital signature platform with IP tracking, geo-tagging, selfie verification, and immutable audit trails, capturing **1,000+ letter signatures per month** while reducing onboarding turnaround time.
- Designed a configurable **Workforce Lifecycle Engine** centered on Assignment ID-driven guided journeys, orchestrating 7 fragmented employee movement workflows across 35K+ client employees while ensuring payroll continuity and auditability.

Zunction.in, Co-founder

Indore, India | 05/2023 – 11/2023

- Built a 0 to 1 EdTech ecosystem focused on shared infrastructure for edupreneurs, securing 8 B2B subleasing partnerships through direct market outreach and founder-led sales efforts.

Lokyata, Python Developer

Bengaluru, India | 04/2022 – 04/2023

- Integrated external credit union **APIs** to streamline financial workflows and improve product interoperability across partner systems.
- Developed ETL pipelines using **Python** and **SQL** to support large-scale data processing, transformation, and operational reporting workflows.

Avsar HR Services, Product Manager

Bengaluru, India | 07/2019 – 04/2022

- Orchestrated migration from a third-party workforce platform to a proprietary enterprise platform, **delivering ₹26.4L in recurring annual savings**, and establishing the foundation for future SaaS commercialization.
- Spearheaded the development of a unified **Hire-to-Retire platform**, supporting 15K+ active employees and 3,000+ monthly hires.
- Built a configurable **Applicant Tracking System (ATS)** for high-volume blue-collar hiring, supporting 5,000+ candidates per month.
